

**ONGOING RESEARCH PROJECTS IN CENTRAL RESEARCH LAB (2016- 2021)****PHD Studies**

1.	Dr. B Sekar MDS Professor	2016	Expression Of Various Tumour Environment Markers In Primary Oral Squamous Cell Carcinoma With And Without Regional Lymph Node Metastasis.	Ongoing
2.	Dr.K.Indra Priyadharshini, MDS Addl. Associate Professor	2016	Expression Of Angiogenesis Markers In Oral Dysplastic Epithelium ,Verrucous Carcinoma And Oral Squamous Cell Carcinoma	Ongoing
3.	Dr.M.Ambika MDS Assistant Professor	2018	Correlation And Expression Of Hypoxia Marker And Cancer Stem Marker In Metastatic And Non-Metastatic Oral Squamous Cell Carcinoma	Ongoing

**Dissertations**

1.	Dr. Jayabalan R PG student	2021	Expression Of Mmp-9 In Different Odontogenic Cyst And Odontogenic Tumours A Comparative Immunohistochemical Study	Ongoing
2.	Dr. Rajiv PG student	2021	Immunohistochemical Expression Of Cox2 In Different Histopathological Grades Of Oral Squamous Cell Carcinoma	Ongoing
3.	Dr. Srinath K PG student	2021	Comparative Study Of The Expression Of Wnt1 And Ptch In Normal And Patients With Odontogenic Cysts And Tumours Of TheJaws.	Ongoing

**Minor Studies**

1.	Dr. Reena Rachel John Associate Dean Research & scientific Affairs Dr. Nisha Sam Research Associate Dr. Ranjit Jayachandran Assistant Professor	2021	The Impact of Age and Comorbidity on Vaccinated Health Care Workers in The Outbreak of Sars Cov2 Virus- A Cohort Study	Ongoing
2.	Dr. J Baby John Dean Dr. Nisha Sam Research Associate	2021	Human Age Determination By Estimating SjtREC In Dental Pulp Using Real Time PCR (Qpcr)- An Ex-Vivo Study	Ongoing
3.	Dr. Mathew Jacob MDS, PHD Associate Professor Dr. P Rajathi, MDS Associate Professor	2021	Dimensional visual recording of biopsy specimens using stereo zoom microscope and customized template in the preanalytic phase of gross examination	Ongoing
